

CVS

1. Access the Source Tree

Anyone can checkout source code from our anonymous CVS server. To do so, simply use the following commands (if you are using a GUI CVS client, configure it appropriately):

```
cvsc -d:pserver:anonymous@cvs.sourceforge.net:/cvsroot/xfp login
```

When prompted for a password for anonymous, simply press the Enter key.

```
cvsc -d:pserver:anonymous@cvs.sourceforge.net:/cvsroot/xfp xfp
```
